Transportation Security Policy Communications

Available to airports and companies that participate in the AAAE & ALA Federal Affairs Membership.

About the AAAE & ALA Federal Affairs Membership

AAAE has dedicated millions of dollars more to representing airports in Washington on legislative and regulatory matters than we raise through the annual memberships. The support we receive from airport and corporate support of the AAAE & ALA Federal Affairs Membership ensures that the AAAE Federal Affairs team can protect airports' interest in Washington on all of these important aviation issues and more.

Any employee at a participating AAAE & ALA Federal Affairs Member airport or company may receive these updates and access the policy department websites and archives. For the airport membership, dues are based on hubsize. Companies interested in participating in the membership may choose from three levels of participation, Committee Member, Ranking Member and Chairman's Circle Member.

If you have questions regarding the AAAE & ALA Federal Affairs Membership or how to participate, please contact Gwen.Basaria@aaae.org.
