

## **AAAE Audit Committee**

The mission of the AAAE Audit Committee is to provide financial oversight of the association and conduct detailed reviews of annual audits and financial management systems and reports.

## **AAAE Diversity Committee**

The mission of the AAAE Diversity Committee is to promote and facilitate the inclusion of women and minorities into all organizational levels of the aviation industry. This Committee is further dedicated to the promotion and facilitation of Supplier Diversity as it relates to contracting, construction and concession opportunities in the aviation industry.

## **AAAE Airline Economics and Air Service**

The mission of the AAAE Airline Economics and Air Service Committee is to monitor and coordinate all activities of AAAE regarding the impact of airline economics on airport management and air service competition issues.

## **International Association of Airport Executives**

The mission of the International Association of Airport Executives is to coordinate all international membership, conferences and activities of AAAE/IAAE.

## **U.S. Contract Tower Association**

The mission of the U.S. Contract Tower Association is to coordinate for AAAE members all activities associated with the FAA contract tower program.

## **AAAE Training Committee**

The mission of the AAAE Training Committee is to advise the AAAE Board and staff about appropriate and relevant airport training activities of AAAE including on-site airport training programs, curriculum development, and computer-based training programs and to seek and connect airports nationwide with training solutions and opportunities that serve known and emerging needs.

## **AAAE Transportation Security Services Committee**

The mission of the AAAE Transportation Security Services Committee is to monitor and coordinate aviation security issues that impact airport management through interaction with the Transportation Security Administration, Homeland Security Department and our other partners in the aviation industry.

## **AAAE Technical Services Committee**

The mission of the AAAE Technical Committee is to monitor and coordinate aviation technical applications that impact airport management through interaction with the agencies that regulate our industry, entities which advise these agencies, and our other partners in the aviation industry. A GIS subcommittee will be established under this committee to deal specifically with GIS challenges.

## **AAAE General Aviation Airports Committee**

The mission of the AAAE General Aviation Airports Committee is to provide information to, and promote the interests of, the general aviation airport community, and foster its relationships with airport management members and other partners in the aviation industry. The goal of the committee is to work with AAAE staff in developing services relevant to general aviation airports.

## **AAAE Foundation**

The mission of the AAAE Foundation is to promote and enhance public understanding and awareness of the importance of advancing continuing education to the airport management profession, and provide assistance through scholarships to encourage individual, academic excellence.

## **AAAE Academic Relations Committee**

The mission of the AAAE Academic Relations Committee is to strengthen the relationship between regional AAAE Chapters and the AAAE Student Chapters within their respective geographic areas, to cultivate intern and co-op programs, and to develop new student chapters.

## **AAAE Finance and Administration Committee**

The mission of the AAAE Finance and Administration Committee is to improve airport finance and administration management through interaction with, and communications among, airport management members and other partners in the aviation industry.

## **AAAE Environmental Services Committee**

The mission of the AAAE Environmental Services Committee is to work with AAAE staff to provide support to AAAE members on environmental issues and to communicate the membership's positions to FAA, EPA, and other relevant and appropriate federal or state agencies. The committee is guided by the principles of protecting human health and the environment at and around airports by implementing reasonable, scientifically-based, and cost-effective management practices and approaches. The committee will continue to support innovative and proactive industry approaches and work with AAAE staff to communicate with the overall membership through developing specialty seminars and membership services.

## **AAAE Military Relations Committee**

The mission of the AAAE Military Relations Committee is to: (1) evaluate the professional development needs of AAAE's military members; (2) foster and create professional development opportunities of mutual benefit to AAAE and its military members; and (3) assist AAAE's military members in achieving a successful transition to the civilian airport management profession.

## **AAAE Operations, Safety, and Planning Committee**

The mission of the AAAE Operations, Safety, and Planning Committee is to: (1) provide member views, analyses, and comments used by AAAE staff in the development of AAAE positions and formal correspondence with federal agencies; and (2) develop professional programs and services for the airport community on those issues related to airport operations, safety, and planning.

## **AAAE Corporate Committee**

The mission of the AAAE Corporate Committee is to foster communication, participation and value with corporate members and AAAE.
